

## About Activated Communications

Activated Communications sells and installs voice and data network and communication systems.

Since 2003 Activated Communications has been selling and servicing phone system equipment, paging equipment, network equipment, and structured cat 3,5,5e,6 and fiber optic cabling systems. Starting out in a mere 400 square foot office space and expanding to there Scotts Valley warehouse in 2005. Activated has been very successful with there 100% customer satisfaction approach. Over the past 6 years we have successfully maintained clients such as Foxconn, BioNovo, Safeway, REI, and many more established and small and medium size business&rsquo;s.

We are a company that offers a complete solution to service and maintain the voice and data communication networks of small to large businesses. Our goal is to provide quality and friendly service at a cost that can be matched by no other.

We reach out to the market by standing out in the competition with our friendly service, unbeatable prices, and expert technicians

With our projects management team working around the clock, we offer solutions that are tailored to each company&rsquo;s specific needs in an efficient and timely manner. Our management philosophy is based on responsibility and mutual respect.As an Activated Communications customer, you are a member of a prestigious team and will take part of all the growth and technology changes that occur on a daily basis. We make it a priority for our clients to have the latest and greatest updates on all the equipment we install!

People, who work at Activated Communications, want to work at Activated Communications because we have an environment that encourages creativity and achievement. Our techs are experienced and certified on many different phone systems, and together can solve any problems faced. We offer 24 hour emergency support so we can give our clients the assurance that we will be there when they need us, and are ready for any emergencies that may come up.

As an authorized dealer for Cisco Systems and Toshiba Telecommunications, we offer only the highest level of service and support. Our technical staff is always undergoing training. This is to ensure our clients have the highest level of service on there systems.

We are an authorized reseller of a variety of Telco services, and can eliminate the hassle of dealing with Telco for our customers. Because our company is still growing we offer our services at competitive rates, and work with each customer based on their financial needs by offering leasing options and or payment plans.&ldquo;My intent for our organization, is to ensure 100% customer satisfaction&rdquo; George LindermanCEO
