

Corded Solutions

This is only a small selection of wired (corded) products offered by Plantronics that Activated Communications is authorized to install, configure, and maintain. Activated Communications can tailor a solution that best fits your needs. Please inquire about other products offered by Plantronics. H361N SupraPlus® SL Noise-Canceling

The Plantronics® SupraPlus SL headset family brings new standards in all-day comfort and reliability to telephone professionals. Enhanced receive-side audio quality, intelligent flexible boom and stylish design provide greater headset flexibility. SupraPlus SL offers monaural or binaural versions, voice tube or noise-canceling microphones and is compatible with Plantronics amplifiers and USB-to-headset adapters.

Highlights

- New silver color
- Noise-canceling microphone
- Includes Leatherette Ear Cushions, adhesive cord clip, and Plantronics logo carrying pouch
- Enhanced audio for greater listening accuracy
- Supports most Plantronics amplifiers and USB-to-headset adapters H351N SupraPlus SL Monaural Noise-Canceling Headset

The Plantronics® SupraPlus SL headset family brings new standards in all-day comfort and reliability to telephone professionals. Enhanced receive-side audio quality, intelligent flexible boom and stylish design provide greater headset flexibility. SupraPlus SL offers monaural or binaural versions, voice tube or noise-canceling microphones and is compatible with Plantronics amplifiers and USB-to-headset adapters.

Highlights

- New silver color
- Noise-canceling microphone
- Includes Leatherette Ear Cushions, adhesive cord clip, and Plantronics logo carrying pouch
- Enhanced audio for greater listening accuracy
- Supports most Plantronics amplifiers and USB-to-headset adapters HW261N SupraPlus® Wideband Binaural Headset

Working with the latest in wideband VoIP technology, the Plantronics® SupraPlus Wideband headset delivers the highest level of audio performance even in noisy environments. The SupraPlus Wideband helps overcome the challenges posed by traditional technology, delivering heightened speech clarity and life-like fidelity. Users will experience greater satisfaction through enhanced intelligibility and reduced miscommunication. A Noise-Canceling microphone filters out excessive background sound to further heighten call clarity. Designed for over-the-head comfort, the SupraPlus Wideband lets users choose between experiencing total-focus sound reduction (Binaural design) or conversing easily with coworkers without removing the headset (Monaural design).

Highlights

- Wideband audio for more natural sound with wideband telephones
- The highest level of performance for wideband VoIP communications
- Premium audio ensures quality customer communications
- Noise-Canceling microphone for reduced background noise
- Comfortable design even for intensive all-day use
- Over-the-head, comfortable design for all-day use
- Binaural style HW251N SupraPlus® Wideband Monaural Headset
